Labour Migration from Rural Odisha
Profiles of Four Blocks
Background

- **Gram Vikas** is a community development organization working in Odisha and Jharkhand since 1979. It works with rural poor and tribal communities to help them lead a dignified life by building capacities, strengthening community institutions and mobilising resources.

- **Centre for Migration and Inclusive Development (CMID)** is a non-government organisation devoted to migration and inclusive development, advocating for and promoting the social inclusion of migrants and other socially disadvantaged populations in India. It stresses on innovations and resources to address the challenges faced by migrant populations.

- The two organisations have come together to understand the issues around migration and the migrant workers, their dependent families and their communities, and to develop meaningful and impactful interventions to make migration safe and dignified.

- A rigorous, intensive exercise was undertaken to study the various aspects of migration in four Blocks in four Districts of Odisha to understand migration from these locations and the impact of COVID pandemic on communities and to help evolve evidence informed strategies to promote resilience of partner communities.
Context of labour migration from rural Odisha

Low education and skills levels
Recurrent natural disasters
Fluctuating agricultural production
Poverty in multiple dimensions
Migration as a coping strategy

Scope of the profiling exercise

• Estimate the household migration rates for the Block
• Understand the impact of migration on the households
• Understand the socio-demographic profile of households and migrants
• Explore the impact of COVID-19 lockdown (except for Thuamul Rampur)

Labour Migration from Rural Odisha

Profiles of Four Blocks

Incidence of Migration
History of labour migration

Proportion of households whose members, currently alive or dead, had stayed continuously for a period of 30 or more days for work outside the district, ever and during the past 10 years

Ever  Past 10 Years

- Jagannathprasad: 61.3% 57.2%
- Rayagada: 47.3% 45.2%
- Baliguda: 36.0% 33.6%
- Thuamul Rampur: 40.7% 33.9%
Household migration rates – pre-COVID

Proportion of households who had at least one person migrated for work outside the District or State (October 2019 for Thuamul Rampur and March 2020 for the other Blocks)

- Jagannathprasad: 37.8% Inter-district, 17.6% Inter-state
- Rayagada: 34.1% Inter-district, 31.4% Inter-state
- Baliguda: 20.6% Inter-district, 18.0% Inter-state
- Thuamul Rampur: 19.8% Inter-district, 18.6% Inter-state
Household migration rates – post COVID

Proportion of households who had at least one person migrated for work outside the District or State (September-October 2020 for three Blocks, not done for Thuamul Rampur)

<table>

</tbody>
</table>
Percentage of migrant workers to the total population of the Block

Proportion of the population of the Block who was outside the District for work (October 2019 for Thuamul Rampur and March 2020 for the other Blocks)

- Jagannathprasad: 12.4%
- Rayagada: 9.3%
- Baliguda: 5.3%
- Thuamul Rampur: 5.8%
Labour Migration from Rural Odisha

Profiles of Four Blocks

Effects of Migration
Impact of migration on the household – coming out of poverty

Proportion of households reporting that they would not have been able to come out of poverty without the income from the migrant member/s of the household

- Jagannathprasad: 78.2%
- Rayagada: 79.2%
- Baliguda: 62.9%
- Thuamul Rampur: 69.8%
Impact of migration on the household – repayment of debt

Proportion of households reporting that they would not have been able to repay debt without the income from the migrant member/s of the household

- Jagannathprasad: 53.2%
- Rayagada: 35.3%
- Baliguda: 33.3%
- Thuamul Rampur: 33.5%
Impact of migration on the household – increased savings

Proportion of households reporting that their savings have increased due to income from the migrant member/s of the household

- Jagannathprasad: 64.3%
- Rayagada: 68.1%
- Baliguda: 46.4%
- Thuamul Rampur: 58.1%
Impact of migration on the household – diversified income

Proportion of households reporting that they have been able to diversify household income sources

- Jagannathprasad: 15.1%
- Rayagada: 12.6%
- Baliguda: 12.9%
- Thuamul Rampur: 26.8%
Impact of migration on the household – improved agriculture

Proportion of households reporting that they were able to improve agriculture using income from the migrant member/s of the household

- Jagannathprasad: 50.0%
- Rayagada: 33.3%
- Baliguda: 34.3%
- Thuamul Rampur: 42.5%
Impact of migration on the household – stopped agriculture

Proportion of households reporting that they had to completely stop farming activities due to migration

- Jagannathprasad: 13.1%
- Rayagada: 17.9%
- Baliguda: 19.3%
- Thuamul Rampur: 15.1%
Impact of migration on the household – New house built

Proportion of households reporting that they built a new house from the income earned by migrant member/s

- Jagannathprasad: 27.8%
- Rayagada: 32.4%
- Baliguda: 9.3%
- Thuamul Rampur: 5.6%
Impact of migration on the household - better education

Proportion of households reporting that they were able to provide better education for children from the income of the migrant member/s

- Jagannathprasad: 48.8%
- Rayagada: 52.2%
- Baliguda: 28.6%
- Thuamul Rampur: 35.2%
Impact of migration on the household – difficulty in obtaining healthcare

Proportion of households reporting difficulties in obtaining healthcare due to absence of adult members of the household

- Jagannathprasad: 83.3%
- Rayagada: 72.0%
- Baliguda: 66.4%
- Thuamul Rampur: 58.1%
Estimated monthly remittances received by households in the Block

Amount in Rupees that migrant workers remit to their native villages every month, estimated for the Blocks based on incidence of migration and reported remittances by workers

- Jagannathprasad: ₹ 5.3 crore
- Rayagada: ₹ 1.8 crore
- Baliguda: ₹ 1.8 crore
- Thuamul Rampur: ₹ 2.3 crore
Estimated monthly remittances received by households in the District

Amount in Rupees that migrant workers remit to their native villages every month, estimated for the Districts based on the sample data

Ganjam: ₹ 124 crore
Gajapati: ₹ 15 crore
Kandhamal: ₹ 16 crore
Kalahandi: ₹ 37 crore
Key takeaways

• Migration contributes substantially to promoting the resilience of Gram Vikas’s partner communities

• Migration plays a pivotal role in the economy of rural Odisha

• It has substantially helped individuals, households and communities in Odisha to become more resilient to the adversities they confront

• If made safe, migration for work has the potential to significantly accelerate human development in rural Odisha

• Safe and dignified migration can substantially contribute to empowerment of individuals, households and communities in rural Odisha

• Most migrants prefer to stay back and work at their native place if they have a regular monthly income of ₹10,000-₹12,000
Labour Migration from Rural Odisha

Profiles of Four Blocks

Profile of Households
Distribution of households by social groups

Proportion of sample households belonging to different social groups

- **Scheduled Caste**
  - Jagannathprasad (421): 9.70%
  - Rayagada (440): 12.50%
  - Baliguda (417): 3.80%
  - Thuamul Rampur (440): 13.60%

- **Scheduled Tribe**
  - Jagannathprasad (421): 56.80%
  - Rayagada (440): 78.60%
  - Baliguda (417): 49.90%
  - Thuamul Rampur (440): 58.60%

- Jagannathprasad
- Rayagada
- Baliguda
- Thuamul Rampur
Status of household indebtedness

Proportion of sample households reporting outstanding, unpaid borrowings

- Jagannathprasad (421): 28.9%
- Rayagada (440): 5.2%
- Baliguda (417): 18.9%
- Thuamul Rampur (440): 18.9%
Impact of COVID-19 on household incomes

Average household income reported by sample households before and after the COVID-19 lockdown (not done in Thuamul Rampur)

- **Jagannathprasad (421)**: ₹ 8,500 (Before Lockdown), ₹ 5,000 (After Lockdown)
- **Rayagada (440)**: ₹ 5,000 (Before Lockdown), ₹ 2,100 (After Lockdown)
- **Baliguda (417)**: ₹ 7,000 (Before Lockdown), ₹ 2,500 (After Lockdown)
Status of COVID-19 assistance from Government

Proportion of households reporting having received assistance from the Government during the COVID-19 pandemic (not done in Thuamul Rampur)

- Financial Assistance
- Additional Free Ration

Jagannathprasad (421)
- Financial Assistance: 78.4%
- Additional Free Ration: 78.4%

Rayagada (440)
- Financial Assistance: 91.6%
- Additional Free Ration: 91.8%

Baliguda (417)
- Financial Assistance: 86.6%
- Additional Free Ration: 86.3%
Distribution of migrant workers by social groups

Proportion of migrant workers covered in the survey, according to different social groups

- **Scheduled Caste**
  - Jagannathprasad (168): 11.0%
  - Rayagada (139): 0.7%
  - Baliguda (94): 20.2%
  - Thuamul Rampur (84): 17.9%

Income needed to prevent migration

Expected regular monthly income at native place that would prevent their migration as reported by the migrant workers:

- Jagannathprasad (168): ₹ 12,000
- Rayagada (139): ₹ 10,000
- Baliguda (94): ₹ 10,000
- Thuamul Rampur (84): ₹ 10,000
Labour Migration from Rural Odisha
Profiles of Four Blocks

Study Methodology
Self-weighted random sample for independent estimates for block
Household Survey: 22 Primary Sampling Units (PSU) and 20 households per PSU per block
Migrant Survey: Longest duration (T. Rampur), largest economic contribution to household (other blocks)
## Sample size and data collection
